

# THE AQUARIAN EMPIRE

THE NEW AGE OF AQUARIUS IS HERE!!  
And of this there can be no doubt for The New Age Messengers streak through our skies in Their bodies of fire and steel. THEY ARE HERE! These Beings from out the starry space hover over our great cities night after night watching, waiting and, perhaps, praying for that hour when They can present Them-selves to you--even to YOU! YOU! For it is only to people like you, pioneers of The New Age of Atomic Consciousness, that These Beings of OuterSpace CAN come! Think of it! You--who read these pages--belong to that supremely important company of New Age Pioneers upon whom the very existence of this planet actually depends. The Messages contained in these pages concern all of us directly and definitely. Without the help of such Students as YOU, the New Age can never come, since it is only to such people as you that These Etherian Guardians can give Their Message first, and then Their peace and protection. Dwell deeply on these statements! They are profoundly significant.

THE NEW AGE OF AQUARIUS CONCERNS VASTLY MORE THAN THE DESTINY OF OUR LITTLE PLANETTE, and its people. And it is concerned with even much more than our great solar-system of twelve planets moving around the central sun, however huge this may seem to us now. The Aquarian Age is concerned with dimensions in space which are totally beyond our powers of imagination to adequately conceive. Perhaps this illustration will help: Overhead in the night sky of summer you may be able to make out a tiny point of milky white light. When seen with the magical lenses of the telescope this tiny point of light becomes a blazing galaxy of stars and suns, about 50,000 the scientists tell us! And most of these suns is thought to have its own family of planets whirling around it as does our own sun. To ALL of these 50,000 suns and their satellites there is coming a New Age, a New Cycle of Activity, a New Period of Progress and Development. Our own sun and its twelve children are a part of this Aquarian Empire. Our Earth and its Twelve Great Nations are a part of this Aquarian Kingdom. And each of YOU and the Twelve Cosmic Centers (or planets) within your human body, each of YOU is being swept forward, upward and inward to your rightful place as a part of the Aquarian Age! The Aquarian Age, with all of its great changes MUST come to each of YOU. IT WILL COME. It will come whether we wish it, are ready for it, or are able to endure it. VERILY.
